

Cybersecurity Certificate

This certifies that

ABRA Software a.s.

has successfully met the requirements for modern cybersecurity standards.

Following a comprehensive assessment, the following security measures and processes were evaluated and confirmed as compliant with current best practices:

Organisational Security (Backup, Incident Response, On-/Offboarding)

Infrastructure (High Availability, Complexity of Infrastructure)

Continuity & Resilience (Network Isolation, Backup, Monitoring)

IT Security (Employee Training, Endpoint Protection)

This assessment was conducted by **CONVOTIS Deutschland GmbH** and confirms that **ABRA Software a.s.** has implemented the necessary technical, organizational, and personnel measures to protect sensitive data and effectively mitigate cyber threats.

Certificate Validity: October 2025 – October 2026
